

Year 1 - Homework - Term 5 – Super Seas

Please work with your child over the term to complete one activity from each subject heading and evidence this in their home learning book. You are welcome to choose more! We would like to see your child’s learning evidenced in their book, in whatever way suits the activity you have completed. Please return PIP books with completed homework by Friday 17th May when they bring in book bags, ready for us to celebrate their learning in class with their friends.

English	Maths	Physical	Science	Creative
Write a fairy tale. Remember it must have a beginning, middle and end.	Number 24 -Write it - Is it odd or even? -Double it (double 20 then double 4) - Find half of it and a quarter of it (share out)	Walk to school at least twice a week and time it. Record in a table.	Design a healthy plate of food. Can you sort the food into different food groups?	Take some of your own photographs of things around where you live, will they be better portrait or landscape?
Research and record facts about the RNLI. What service do they offer? How do they help us?	-Find 10 more than (don’t count this, just look at the tens number) -Find 10 less than -Write a number that is smaller than it -Add 7 to it -Subtract 7	Go swimming, time the length of time you were active in the pool.	Plant a bulb or seed with an adult. Each week record a drawing of the plant in a picture diary.	Research Pop art. Can you use a photograph you have taken to make your own pop art? Can you change the colours on a computer?
Find and write words from a selection of books that have split vowel digraph a-e, e-e, i-e, o-e & u-e	- Write a number that is bigger than it - Can you divide 24 (share this number equally) between 3? Try these questions again with another number	Make an assault course in the garden. How long did it take for one lap? Can you beat it?	Visit Activity packs - British Science Week where you will discover some exciting learning to share together.	Create a pirate ship or treasure island out of different materials. Which work best?
Create a new character. What makes them special? Do they do something magical? Can you describe where they live?		Go for a bike ride for at least 30 mins. Can you feel your heart rate increase? Track how far you have travelled. Can you draw a map of your route?	Research the parts of a plant. Draw or photograph one and label it. Do all plants look the same?	Record a video of you telling a pirate story. It could be one you are reading or one you have made up. Can you make the characters to use in the story?

Term 5 - Friendliness

What would you do if you saw somebody playing alone? For example ‘Do you want to come and play with me?’ How do you think this would make the person feel? Role-play with a member of your family and pretend you saw the other person playing alone. Approach them and try to make friends with them, using some of the questions you have just thought of.
